### What is the Yukon Kuskokwim Delta Transportation Plan?

The YKTP is a 20-year multi-modal regional transportation plan, including various vehicle fleets (planes, ATVs, snow machines, barges, skiffs, and automobiles) and modes (aviation, surface, and marine) of transportation.

#### The primary objectives of this plan are to:

- Align the YKTP with the State of Alaska's LRTP and policy guidelines of MAP-21
- Coordinate with existing community and sub-regional plans
- Analyze existing transportation systems
- Develop analytical tools to prioritize projects
- Provide funding, policy, and project recommendations
- Provide an opportunity for the region to invest in its identity and future
